

K-Love is the only station I listen to on my radio. It is uplifting and keeps me in touch with local non-profit activities in my area. If K-Love were to be displaced by an LPFM broadcaster providing other programming, it would hurt the people who listen to K-Love on a regular basis. There is so much other secular music out there today, please allow one of the "other" stations to remain on the air for the benefit of our young people. When people listen to K-Love, they have no other choice but to be encouraged. That is what our country needs today! Please work with the K-Love communities on this.
